

FEGA Mission-Vision-Values statement

This document contains the only official Mission-Vision-Values statement for Federated EGA, produced and formally approved by the FEGA strategic committee on September 23rd 2025.

How to use this statement:

- It can be used in any form of communication regarding FEGA.
- It can be used full-length or partial: only mission, only vision, only values, mission + vision, etc.
- It can be used with the extended or shortened version of the values, see below.
- It can not be modified, nor presented in internal or external communications with any other wording or arrangements.

Extended Mission-Vision-Values statement

Federated EGA is a global network of repositories enabling secure discovery and access to sensitive human data.

Our vision is to accelerate scientific discovery and healthcare breakthroughs by creating the go-to worldwide sensitive human data resource.

Our values are:

Privacy & Trust: Ensuring privacy of data subjects, security of services and acting with integrity to build community trust.

FAIRness: Driving reuse of data through standardisation of metadata and clear access policies

Diversity: Expanding our network and representing global diversity in the data we host to bring benefits worldwide.

Shortened Mission-Vision-Values statement

Federated EGA is a global network of repositories enabling secure discovery and access to sensitive human data.

Our vision is to accelerate scientific discovery and healthcare breakthroughs by creating the go-to worldwide sensitive human data resource.

Our values are Privacy & Trust, FAIRness, and Diversity.
